CONTENTS OF VOLUME 13

NUMBER 1

Special issue: Remote sensing in the Polar regions

Cover 1

Preface 3

Remote sensing of ice and snow: review and status. **F. Carsey** 5

Remote sensing of clouds and surface radiation budget over Polar Regions. **E. Raschke, P. Bauer and H. J. Lutz** 13

Sea ice distribution in the Greenland and Barents Seas based on satellite information for the period 1966–89. **M. Eckardt, J. Gallas and W. Tonn** 23

Effects of weather on the retrieval of sea ice concentration and ice type from passive microwave data. **J. A. Maslanik** 37

A satellite case study of a katabatic surge along the Transantarctic Mountains. **D. H. Bromwich** 55

Wind and temperature regime in Mizuho Plateau, East Antarctica. **T. Kikuchi, K. Satow, T. Ohata, T. Yamanouchi and F. Nishio** 67

High-latitude moisture structure determined from HIRS water vapour imagery. **J. Turner and H. Ellrott** 81

Pattern recognition analysis of polar clouds during summer and winter. **E. E. Ebert** 97

Cloud distribution in the Antarctic from AVHRR data and radiation measurements at the surface. **T. Yamanouchi and S. Kawaguchi** 111

Use of TOVS observations for the study of polar and arctic lows. **C. Claud, N. A. Scott and A. Chedin** 129

The use of a simultaneous physical retrieval scheme for satellite derived atmospheric temperatures: Weddell Sea, Antarctica. **T. A. Lachlan-Cope** 141

The use of climatological observations as ground gruth for distributions of minimum temperature derived from AVHRR data. **J. McClatchey** ... 155

NUMBER 2

Cover. Map of Visakhapatnam District—AP—India—Showing May 1990 cyclone-affected areas as derived from IRS imagery. **I. V. Muralikrishna** 165

Technical note. Use of AVHRR imagery in arctic marine mammal research. **D. G. Barber and P. R. Richard** 167

Relating SMMR 37 GHz polarization difference to precipitation and atmospheric carbon dioxide concentration: a reappraisal. **C. J. Tucker** ... 177

Spatial attributes of AVHRR imagery for environmental monitoring. **A. S. Belward** 193

Satellite daytime image classification for global studies of Earth's surface parameters from polar orbiters. **G. G. Gutman** 209

Radiometric calibration and monitoring of NOAA AVHRR data for ISCCP. **C. L. Brest and W. B. Rossow** 235

Extracting spactral albedo from NOAA-9 AVHRR multiple view data using an atmospheric correction procedure and an expert system. **D. S. Kimes and B. N. Holben** 275

ATMOSATLAND PC software for the processing and application of NOAA/HRPT data for environmental studies. **L. A. Barański** 291

Evaluation of natural and man-made features using Landsat TM data. **J. P. Ormsby** 303

Detection of circular structures on satellite images. **H. Taud and J.-F. Parrot** 319

Extraction et analyse automatiques d'un réseau hiérarchisé de talwegs. Application à un modèle numérique de terrain dérivé d'un couple stéréoscopique SPOT. **S. Raizanoff, P. Julien, B. Cervelle and J. Chorowicz** 337

A comparison of procedures for classifying remotely-sensed data using simulated data sets. **J. D. Wilson** 365

Remote Sensing Letters

A pyramidal scheme for stereo matching SIR-B imagery. **M. Denos** ... 387

Estimators of bottom reflectance spectra. **L. Estep and J. Holloway** ... 393

NUMBER 3

Cover 399

Change detection with synthetic aperture radar. **J. Cihlar, T. J. Pultz and A. L. Gray** 401

Linear mixture modelling applied to AVHRR data for crop area estimation. **N. A. Quarmby, J. R. G. Townshend, J. J. Settle, K. H. White, M. Milnes, T. L. Hindle and N. Silleos** 415

Estimation of cropped area and grain yield of rice using remote sensing data. **S. B. Tennakoon, V. V. N. Murty and A. Eiumnoh** 427

Analysis of colour infrared aerial photography and SPOT satellite data for monitoring land cover change of a heathland region of the Causse du Larzac (Massif Central, France). **E. Csaplovics** 441

High-spectral resolution data for determining leaf water content. **F. M. Danson, M. D. Steven, T. J. Malthus and J. A. Clark** 461

Passive microwave remote sensing of soil moisture from aircraft in Hungary. **G. Ijjas and Y. S. Rao** 471

Soil moisture detection with airborne passive and active microwave sensor. **B. John** 483

Inferences on spatial and temporal variability of the backscatter from growing crops using AgriSAR data. **C. C. F. Yanasse, S. Quegan and R. J. Martin** ... 493

Navigation of coastal AVHRR images. **D. M. O'Brien and P. J. Turner** ... 509

Processing error reduction factors in the generation of geometrically corrected NOAA/AVHRR vegetation index images. **R. K. Gupta** ... 515

A new method of estimating path radiance for band ratio applications. **G. Wang and M. Nunez** ... 527

Algorithm for atmospheric corrections of aircraft and satellite imagery. **R. S. Fraser, R. A. Ferrare, Y. J. Kaufman, B. L. Markham and S. Mattoo** 541

Accuracy of atmospheric correction algorithm using ATM data. **S. M. Singh** 559

Book review ... 571

Remote Sensing Letters

Multifrequency passive microwave observations of soil moisture in an arid rangeland environment. **T. J. Jackson, T. J. Schmugge, R. Parry, W. P. Kustas, J. C. Ritchie, A. M. Shutko, A. Haldin, E. Reutov, E. Novichikhin, B. Liberman, J. C. Shiue, M. R. Davis, D. C. Goodrich, S. B. Amer and L. B. Bach** ... 573

NUMBER 4

Cover. Lake Eyre in flood. **R. P. Cechet and A. J. Prata** ... 581

The application of SPOT multispectral imagery for the assessment of water quality in Lake Patzcuaro, Mexico. **A. Chacon-Torres, L. G. Ross, M. C. M. Beveridge and A. I. Watson** ... 587

Thematic mapping of subtidal coastal habitats in the western Arabian Gulf using Landsat TM data—Abu Ali Bay, Saudi Arabia. **M. A. Khan, Y. H. Fadlallah and K. G. Al-Hinai** ... 605

Two-dimensional modelling of synthetic-aperture-radar imaging of ocean waves using the subwindowing technique. **J. C. West** ... 615

Multi-spectral analysis of ice sheets using co-registered SAR and TM imagery. **P. L. Vornberger and R. A. Bindschadler** ... 637

Component reflectance scheme for DMSP-derived sea ice reflectances in the Arctic Basin. **M. P. Morassutti** ... 647

Measurement of the fractal dimension of ice-sheet surfaces using Landsat data. **W. G. Rees** ... 663

Land cover mapping in a rugged terrain area using Landsat MSS data. **W. Ahmad, L. B. Jupp and M. Nunez** ... 673

Evidence of surface reflectance bidirectional effects from a NOAA/AVHRR multitemporal data set. **J. L. Roujean, M. Leroy, A. Podaire and P. Y. Deschamps** ... 685

A theoretical approach for vegetation change index based on non-corrected radiometric data. **B. S. P. Abednego and C. Collet** 699

District level NOAA/AVHRR vegetation indices and scan angle effects. **R. K. Gupta** 715

Monitoring photosynthetic activity and ozone stress by laser induced fluorescence in trees. **A. Rosema, G. Cecchi, L. Pantani, B. Radicatti, M. Romuli, P. Mazzinghi, O. van Kooten and C. Kliffen** 737

Seasonal reflectance factor dynamics in boreal forest clear-cut communities. **U. Peterson** 753

Remote Sensing Letters

Registration-noise reduction in difference images for change detection. **P. Gong, E. F. Ledrew and J. R. Miller** 773

Monitoring marine oil pollution using AVHRR data: observations off the coast of Kuwait and Saudi Arabia during January 1991. **A. M. Cross** ... 781

The effect of photochemically active species and clouds on the relationship between radiance and concentration profiles. **C. I. Cartalis** 789

NUMBER 5

Editorial. **A. P. Cracknell** 795

Cover 797

Detection of petroleum spilled from the MV *Exxon Valdez*. **W. J. Stringer, K. G. Dean, R. M. Guritz, H. M. Garbeil, J. E. Groves and K. Ahlnaes** ... 799

Orbital subcycles for Earth remote sensing satellites. **W. G. Rees** 825

Bayesian classification of polarimetric SAR images using adaptive *a priori* probabilities. **J. J. van Zyl and C. F. Burnette** 835

Improved decorrelation stretching of TM data for geological applications: first results in Northern Somalia. **M. C. Ferrari** 841

Atmospheric condition and its influence of reflectance of bare soil surfaces in southern Tunisia. **G. F. Epema** 853

Infrared thermography and urban temperature patterns. **I. Eliasson** ... 869

An extension to the split-window technique giving improved atmospheric correction and total water vapour. **A. R. Harris and I. M. Mason** ... 881

Cloud classification using METEOSAT VIS-IR imagery. **F. Porcú and V. Levizzani** 893

Technical note. A low-cost high-quality system for the acquisition and digital processing of images of WEFAX type provided by meteorological geostationary satellites. **L. Wald, J. L. Wald and G. Moussu** 911

Remote Sensing Letters

Land-cover discrimination in SPOT HRV imagery using an artificial neural network—a 20-class experiment. **I. Kanellopoulos, A. Varfis, G. G. Wilkinson and J. Mégier** 917

Identification of a far-red reflectance response to ectomycorrhizae in slash pine. **W. G. Cibula and G. A. Carter** 925

Fast atmospheric correction algorithm. **S. M. Singh** 933

Evaluation of the maximum evapotranspiration over the La Mancha region, Spain, using NOAA AVHRR data. **V. Caselles, J. Delegido, J. A. Sobrino and E. Hurtado** 939

A multi-temporal comparison of two similar Landsat Thematic Mapper images of upland North Wales, U.K. **A. G. Thomson** 947

On the feasibility of measuring sea surface temperature using active and passive microwave sensors. **C. L. Rufenach and R. A. Shuchman** ... 957

Monitoring of Hudson/Raritan estuary using multispectral video data. **S. Bagheri and M. Stein** 965

A Geosat-derived noise spectrum for detecting seamounts in the Arabian Sea. **R. M. Gairola, Sujit Basu and P. C. Pandey** 971

Towards continental scale crop area estimation **N. A. Quarmby** 981

An exact wide field digital imaging algorithm. **R. K. Raney** 991

NUMBERS 6 & 7

Special issue: European Achievements in Remote Sensing

Foreword. **J. P. Contzen** 1001

Preface. **R. Gibson and D. Hardy** 1003

Editorial. **R. A. G. Savigear** 1005

Introduction. The origins and development of remote sensing in Europe. **G. Fraysse, G. Calabresi and L. Fusco** 1007

Part I The International and National Organisations

Remote sensing from space: the European Space Agency's achievements and current programmes. **R. Lüst** 1023

The work and role of the Commission of the European Communities. **R. Klersy** 1035

The European remote sensing scientific community and the Council of Europe. **J.-P. Massué** 1059

EUMETSAT: Objectives, role and activities. **J. Morgan** 1065

European Association of Remote Sensing Laboratories: a scientific network of co-operation. **P. Gudmandsen, J. Bodechtel and R. Cassinis** 1071

Le programme spatial français pour l'Observation de la Terre. **A. Baudoin and M. Chevrel** 1083

The contribution of space industry to remote sensing. **W. A. Kriegel and M. J. C. Toussaint** 1103

Part II Acceptance and Use of Earth Observation Satellite Data

Acquisition, processing and distribution of experimental satellite data. **L. Marelli** 1125

Acquisition, processing and distribution of operational satellite data. **J. Morgan and G. Szejwach** 1137

Meteorological satellites. **B. Mason and J. Schmetz** 1153

Part III Independent Initiatives

Aircraft experiments with visible and infrared sensors. **A. Wadsworth, W. J. Looyen, R. Reuter and M. Petit** 1175

Experiments with microwave sensors. **L. Krul and G. P. de Loor** 1201

Learned societies, learned journals and other publications. **A. P. Cracknell** 1217

Part IV The Search For Applications: Some Examples

Meteorology and climatology. **R. W. Saunders and B. Seguin** 1231

The marine environment. **T. D. Allan** 1261

Water resources. **H. Haefner and P. Pampaloni** 1277

Geoscientific achievements. **J. Bodechtel and M. Frei** 1305

Land cover. **J. R. G. Townshend** 1319

Agriculture and Forestry. **J. Meyer-Roux and C. King** 1329

Integrated geographical information systems. **M. J. Jackson** 1343

Part V Associated Developments

The growth of commercial and consultancy services. **J. W. Trevett** ... 1355

The status of remote sensing education and training in 1990. **C. Voûte** ... 1365

Appendix. Derivations of Acronyms 1375

NUMBER 8

Cover 1389

Automated detection of jet contrails using the AVHRR split window. **M. Engelstad, S. K. Sengupta, T. Lee and R. M. Welch** 1391

Cloud regimes characterized by the Burger distribution and potential applications to satellites. **K. McGuffie and A. Henderson-Sellers** 1413

Location of kimberlites using Landsat Thematic Mapper images and aerial photographs: the Redondão diatreme, Brazil. **R. Almeida-Filho and R. M. G. Castelo Branco** 1449

Land-use classification of SPOT HRV data using a cover-frequency method. **P. Gong and P. J. Howarth** 1459

Estimation of suspended solids using Indian Remote Sensing Satellite-1A data: a case study from Central India. **V. K. Choubey and V. Subramanian** 1473

Remote sensing of suspended sediments: the Lake Chicot, Arkansas project. **F. R. Schiebe, J. A. Harrington, Jr. and J. C. Ritchie** 1487

Comparison of multispectral video and SPOT-1 HRV observations for cotton affected by soil salinity. **C. L. Wiegand, J. H. Everitt and A. J. Richardson** 1511

Monitoring and the study of the effects of image scale on delineation of salt-affected soils in the Indo-Gangetic plains. **R. S. Dwivedi** 1527

Accuracy of in-flight calibration of the water-vapour channel of a satellite radiometer by radiance calculation. **Y. Takayama** 1537

A simple atmospheric correction method for the short wave satellite images. **M. Putsay** 1549

Hierarchical image segmentation using local and adaptive similarity rules. **G. B. Benie and K. P. B. Thomson** 1559

Remote Sensing Letters

A new method to improve the radiometric monitoring of atmospheric composition for photochemical active species: an application for nitric oxide. **C. Cartalis** 1571

Mapping Adélie penguin rookeries in the Vestfold Hills and Rauer Islands, east Antarctica, using SPOT HRV data. **A. K. Bhikhridas, M. D. Whitehead and J. A. Peterson** 1577

The Best Index Slope Extraction (BISE): A method for reducing noise in NDVI time-series. **N. Viovy, O. Arino and A. S. Belward** 1585

NUMBER 9

Cover. Kuala Lumpur and its environs. **M. Hashim** 1591

The UK element of the Maestro-1 SAR campaign. **J. R. Baker and P. L. Mitchell** 1593

The geometry of SAR images for geocoding and stereo applications. **I. Dowman** 1609

The D-PAF ERS-1 Geocoding System. **A. Roth and G. Schreier** 1619

Multi-look versus single-look processing of synthetic aperture radar images with respect to ocean wave spectra estimation. **H. Johnsen** 1627

Correlations between X-, C-, and L-band imagery within an agricultural environment. **R. J. Brown, M. J. Manore and S. Poirier** 1645

Dependence of the surface backscattering coefficients on roughness, frequency and polarization states. **A. K. Fung and K. S. Chen** 1663

Estimation of the ground cover ratio of a wheat canopy using radiometry. **P. Boissard, J.-G. Pointel and J. Tranchefort** 1681

Land cover inventory in the Netherlands using remote sensing; application in a soil and groundwater vulnerability assessment system. **H. A. M. Thunnissen, M. N. Jaarsma and O. F. Schoumans** 1693

The quantitative evaluation of false colour photography with application of a red filter. **J. G. P. W. Clevers and H. T. C. van Stokkom** 1709

How accurately do image classifiers estimate area? **J. R. Dymond** 1735

A new cross-correlation algorithm and the detection of rhodamine-B dye in sea water. **S. Danaher, E. O'Mongain and J. Walsh** 1743

Aerosol radiative corrections to the retrieval of sea surface temperatures from infrared radiances measured by the Advanced Very High Resolution Radiometer (AVHRR). **C. R. Nagaraja Rao**... 1757

Remote Sensing Letters

Singular value decomposition in multispectral radiometry. **S. Danaher and E. O'Mongain** 1771

Volume quantification of coniferous forest compartments using spectral radiance recorded by Landsat Thematic Mapper. **J. Ardö** 1779

Vegetation cover mapping over France using NOAA-11/AVHRR. **M. Derrien, B. Farki, H. Legléau and A. Sairouni** 1787

Errors at large satellite zenith angles on AVHRR derived sea surface temperatures. **J. Y. Antoine, M. Derrien, L. Harang, P. Le Borgne, H. Le Gleau and C. Le Goas** 1797

NUMBER 10

Cover 1805

Spectral estimates in Fourier spectroscopy applied to remote sensing of the atmosphere: a parametric autoregressive modelling approach. **U. Amato, M. M. Bonzagni, R. Rizzi and C. Serio** 1807

A method for the detection of clouds using AVHRR infrared observations. **V. Thiermann and E. Ruprecht** 1829

Crop-system characterization by multitemporal SPOT data in the South-East of France. **M. Guerif, Xing Fa Gu and J. P. Guinot** 1843

Automatic selection of control-points from shadow structures. **P. A. Brivio, A. Della Ventura, A. Rampini and R. Schettini** 1853

Relations between reflectance in Landsat MSS wavebands and floristic composition of Australian chenopod rangelands. **M. Pando, R. T. Lange and A. D. Sparrow** 1861

Response of thematic mapper bands to plant water stress. **W. G. Cibula, E. F. Zetka and D. L. Rickman** 1869

Classification using the watershed method. **A. I. Watson, R. A. Vaughan and M. Powell** 1881

Evolution of Kosi river fan, India: structural implications and geomorphic significance. **R. P. Agarwal and R. Bhoj** 1891

Recognition of an overspill-induced estuarine frontal system in the Ria do Barqueiro, north-west Spain, using remote sensing techniques. **J. M. Anderson, R. W. Duck, J. McManus, J. J. Diez Gonzalez** 1903

Landsat TM based quantification of chlorophyll-a during algae blooms in coastal waters. **S. Ekstrand** 1913

Detecting surface schools of fish with a SLAR: Real-time target detectability and enhancement. **V. D. Lyne, F. B. Griffiths, G. P. Harris, J. S. Parslow and S. H. Clift** 1927

Sea bottom topography with X-band SLAR: the relation between radar imagery and bathymetry. **J. Vogelzang, G. J. Wensink, G. P. De Loor, H. C. Peters and H. Pouwels** 1943

Book review 1959

Errata 1961

NUMBER 11

Cover 1963

A comparison of ISCCP C1 cloud amounts with those derived from high resolution AVHRR images. **B. C. Weare** 1965

The multispectral colour-composite technique: an improved method to display meteorological satellite imagery. **B. Bellec and H. le Gleau** ... 1981

Percentage vegetation cover of a degrading rangeland from SPOT. **J. R. Dymond, P. R. Stephens, P. F. Newsome and R. H. Wilde** 1999

Technical note. Some spectral signatures of Grain Amaranthus (*Amaranthus cruentus*, L.). **T. A. Fasheun and E. E. Balogun** 2009

Vegetation maps, mapping needs and scope of digital processing of Landsat Thematic Mapper data in tropical region of south-west India. **K. G. Saxena, A. K. Tiwari, M. C. Porwal and A. R. R. Menon** 2017

A supervised Thematic Mapper classification with a purification of training samples. **K. Arai** 2039

The selection of the best possible Landsat TM band combination for delineating salt-affected soils. **R. S. Dwivedi and B. R. M. Rao** 2051

Estimation of rainfall in Senegal using the satellite NOAA-9/AVHRR. **V. C. K. Kakane and J. Imbernon** 2059

Vegetation dynamics, CO_2 cycle and *El Niño* phenomenon. **S. M. Singh** ... 2069

The validity of the composite surface model and its applications to the modulation of radar backscatter. **D. P. Kasilingam and O. H. Shemdin** 2079

Time domain enhancement of frequency domain radar cross-section data. **B. D. Jersak, M. Dolaty and A. J. Blanchard** 2105

Comparing the performance of SAR image segmentation algorithms. **L. M. Delves, R. Wilkinson, C. J. Oliver and R. G. White** 2121

Cumulative effects of salinity and sediment concentration on reflectance measurements. **D. S. Bhargava and D. W. Mariam** 2151

Bulletin 2161

NUMBER 12

Cover. Aerial infrared studies of delta de l'Ebre coast for aquaculture purposes. **J. A. Cusidó, J. Puigdomènech, J. Jorge and J. Arnau** ... 2169

Evaluation of the influence of yellow substance absorption on the remote sensing of water quality in the Gulf of Naples: a case study. **G. M. Ferrari and S. Tassan** 2177

Direct digital remote sensing of herring schools. **G. A. Borstad, D. A. Hill, R. C. Kerr and B. S. Nakashima** 2191

Synthetic aperture radar imaging of ocean surface waves: multi-look and single-look systems. **D. A. Burridge** 2199

Estimation of the azimuthal velocity and the elevation of an eddy from simulated altimeter data. **P. K. Pal and M. M. Ali** 2215

Estimation of the depth to a shallow water-table using microwave radiometry. **E. A. Reutov and A. M. Shutko** 2223

Frequency dependence of radar backscattering under different moisture conditions of vegetation-covered soil. **C. Schmullius and R. Furrur** ... 2233

Reflectance factor dynamics of boreal forest clear-cut communities during early secondary succession. **U. Peterson** 2247

Determination of land surface spectral reflectances using Meteosat and NOAA/AVHRR Shortwave Channel Data. **O. Arino, G. Dedieu and P. Y. Deschamps** 2263

Scale considerations in vegetation monitoring using AVHRR data. **J. P. Malingreau and A. S. Belward** 2289

Principal component analysis of LANDSAT MSS data for delineation of terrain features. **R. S. Dwivedi and T. Ravi Sankar** 2309

Urban heat island. **H. H. Kim** 2319

Geology of Gebel Qattar batholith, central Eastern Desert, Egypt. **M. L. El Rakaiby and M. H. Shalaby** 2337

Remote Sensing Letters

Application of the semivariogram textural classifier (STC) for vegetation discrimination using SIR-B data of Borneo. **F. P. Miranda, J. A. MacDonald and J. R. Carr** 2349

A simulation of bidirectional reflectance distributions for various surface microstructures. **M. Shoshany** 2355

Estimating the mean canopy diameter of teak plantations from Landsat MSS data. **M. P. Oza, V. K. Srivastava and P. K. Devaiah** 2363

NUMBER 13

Special issue: The Bothnian Experiment in Preparation for ERS-1, 1988 (BEPERS-88)

Cover 2373

Preface 2375

The Bothnian Experiment in Preparation for ERS-1, 1988 (BEPERS-88)—an overview. **J. Askne, N. Leppäranta and T. Thompson** 2377

Classification of low-salinity sea ice types by ranging scatterometer. **J. Hyyppä and M. Hallikainen** 2399

The relation between SAR imagery and regional sea ice ridging characteristics from BEPERS-88. **M. Similä, M. Leppäranta, H. B. Granberg and J. E. Lewis** 2415

Observations of the snowcover on sea ice in the Gulf of Bothnia. **G. Crocker** 2433

C-band radar backscatter of Baltic sea ice: theoretical predictions compared with calibrated SAR measurements. **L. M. H. Ulander, R. Johansson and J. Askne** 2447

Effects of ice ridge properties on calculated surface backscattering in BEPERS-88. **A. T. Manninen** 2469

SAR image classification of ice in the Gulf of Bothnia. **Y. Sun, A. Carlström and J. Askne** 2489

NUMBER 14

Cover. First ERS-1 SAR image acquired at Kiruna Salmijarvi, Spitzbergen (Norway) 2515

Relative DEM production from SPOT data without GCP. **R. Tateishi and A. Akutsu** 2517

Evaluation of measurement errors in ground surface reflectance for satellite calibration. **X. F. Gu, G. Guyot and M. Verbrugghe** 2531

The effects of sulphur dioxide on the spectral characteristics of leaves of *vicia faba L.* **F. M. Gemmell and J. J. Colls** 2547

Linking physical remote sensing models with crop growth simulation models, applied for sugar beet. **B. A. M. Bouman** 2565

Use of satellite spectral data in crop yield estimation surveys. **R. Singh, R. C. Goyal, S. K. Saha and R. S. Chhikara** 2583

Variability of high-resolution crop reflectance spectra. **J. C. Price** 2593

Estimating chlorophyll concentrations using upwelling radiance from different freshwater algal genera. **G. Quibell** 2611

The limits on autofocus accuracy in SAR. **J. F. Green and C. J. Oliver** ... 2623

The NARSHA experiment: relating the radar backscatter and acoustic quantities. **G. P. De Loor and P. Lobemeier** 2643

The use of a microwave backscatter model for retrieving soil moisture over bare soil. **P. Bertuzzi, A. Chanzy, D. Vidal-Madjar and M. Autret** ... 2653

On the use of satellite thermal data for determining evapotranspiration in partially vegetated areas. **V. Caselles, J. A. Sobrino and C. Coll** ... 2669

Remote sensing of rainfall over tropical Africa using Meteosat infrared imagery: sensitivity to time and space averaging. **I. Jobard and M. Desbois** ... 2683

A comparison of procedures for classifying remotely-sensed data using simulated data sets incorporating autocorrelations between spectral responses **J. D. Wilson** ... 2701

Remote Sensing Letters

Tank depth determination for water radiometric measurements. **J. E. Mantovani and A. P. Cabral** ... 2727

An optimal estimation technique for increasing the accuracy of crop forecasts by combining remotely sensed and conventional forecast results. **P. C. Pandey, V. K. Dadhwal, Baldev Sahai and P. P. Kale** ... 2735

Use of NOAA-AVHRR NDVI data for environmental monitoring and crop forecasting in the Sahel. Preliminary results. **F. Maselli, C. Conese, L. Petkov and M.-A. Gilabert** ... 2743

The effect of specular reflectance on the relationship between reflectance and vegetation amount. **C. C. Bell and P. J. Curran** ... 2751

NUMBER 15

Cover. The 1992 Etna lava flow imaged by Landsat TM. **D. A. Rothery, A. Borgia, R. W. Carlton and C. Oppenheimer** ... 2759

Improving geological mapping in the Arabian Shield using Landsat Thematic Mapper imagery—Jabal Duhayyah area. **Mohammed Yousef H. T. Qari** 2765

Technical note. Evaluation of Rajasthan desertic terrain, India, for logistic support in oil exploration using Landsat Thematic Mapper data. **D. S. Mitra, R. Bhoj and S. V. Joshi** ... 2773

Geostationary satellite detection of biomass burning in South America. **E. M. Prins and W. P. Menzel** ... 2783

Numerical modelling of radiative transfer and multi-frequency measurement of thermal emission from crop canopies. **Ya-Qui Jin, Jungrong Zhang and Renyu Zhao** ... 2801

Estimating high mosquito-producing rice fields using spectral and spatial data. **B. L. Wood, L. R. Beck, R. K. Washino, K. A. Hibbard and J. S. Salute** ... 2813

Knowledge-based crop classification of a Landsat Thematic Mapper image. **L. L. F. Janssen and H. Middelkoop** ... 2827

Land-use classification in central Spain using SIR-A and MSS imagery. **G. W. Horgan, C. A. Glasbey, S. López Soria, J. N. Cuevas Gozalo and G. González Alonso** ... 2839

The relationship between surface temperature and a spectral vegetation index of a tallgrass prairie: effects of burning and other landscape controls. **A. S. Hope and T. P. McDowell** ... 2849

Technical note. CARABAS: A programmable radiometer for the characterization of backgrounds in the thermal infrared. **P. Jacobs** ... 2865

Angular variation of the infrared emissivity of ice and water surfaces. **W. G. Rees and S. P. James** 2873

An algorithm for the identification of benthic algae in the Venice lagoon from Thematic Mapper data. **S. Tassan** 2887

Apport de la télédétection à l'étude de la relation entre l'hydrodynamisme de surface et les récifs coralliens. **J. Courboules et R. Manière** 2911

Application of digital enhancement techniques for groundwater exploration in a hard-rock terrain **J. Krishnamurthy, P. Manavalan and V. Saivasan** 2925

Remote Sensing Letters

Role of middle infrared bands of Landsat thematic mapper in determining the classification accuracy of rice. **S. Panigrahy and J. S. Parihar** ... 2943

A simple technique for estimating surface temperature by means of a thermal infrared radiometer. **C. Badenas and V. Caselles** 2951

NUMBER 16

Cover. First ERS-1 SAR image acquired at Fucino Frisian Islands (The Netherlands) 2957

Radar measurement of directional ocean wave spectra at low incidence angles. **G. J. Rijckenberg, R. Bernard and G. Caudal** 2961

A thermal microwave emission model for row-structured vegetation. **H. J. Eom** 2975

Reflectance relations in row crop scenes. **D. F. Wanjura** 2983

Comparison of multi-temporal NOAA-AVHRR and SPOT-XS satellite data for mapping land-cover dynamics in the west African Sahel. **S. E. Marsh, J. L. Walsh, C. T. Lee, L. R. Beck and C. F. Hutchinson** 2997

Structured approach to land cover mapping of the Atlantic zone of Costa Rica using single date TM data. **M. A. Mulders, S. De Bruin and B. P. Schuiling** 3017

A comparison of SPOT and Landsat-TM data for use in conducting inventories of forest resources. **J. A. Brockhaus and S. Khorram** ... 3035

The impact of ozone and acid mist on the spectral reflectance of young Norway spruce trees. **C. I. Essery and A. P. Morse** 3045

RGB-NDVI colour composites for visualizing forest change dynamics. **S. A. Sader and J. C. Winne** 3055

Accuracy of estimating the leaf area index from vegetation indices derived from crop reflectance characteristics, a simulation study. **B. A. M. Bouman** 3069

Statistical problems in the discrimination of land cover from satellite images: a case study in lowland Britain. **C. D. Kershaw and R. M. Fuller** ... 3085

Influence of atmospheric aerosols and desert reflectance properties on satellite radiance measurements. **D. E. Bowker and R. E. Davis** 3105

Deviations of the temperature models derived by remote and *in situ* sensing techniques for the global middle atmosphere. **C. Varotsos and C. G. Helmis** 3127

Clustering applied to cloud wind determination. **G. Wade, K. S. Lau and N. L. H. Wood** 3135

Semi-automated training aproaches for spectral class definition. **P. V. Bolstad and T. M. Lillesand** 3157

Nested-hierarchical scene models and image segmentation. **C. Woodcock and V. J. Harward** 3167

Analysis of edge enhancement operators and their application to SPOT data. **M. Asif Khan** 3189

An improved algorithm for NOAA-AVHRR image referencing. **M. Bachmann and J. Bendix** 3205

Label relaxation using a linear mixture model. **K. Arai and Y. Terayama**... 3217

Remote Sensing Letters

On the accuracy of the global positioning system—A test using a hand-held receiver. **J. Ardö and P. Pilesjö**... 3229

A comparison of Landsat TM and SPOT HRV data for use in the development of forest defoliation models. **J. A. Brockhaus, S. Khorram, R. I. Bruck, M. V. Campbell and C. Stallings** 3235

NUMBER 17

Cover 3241

Burning oilwells in Kuwait—smoke plume monitoring and effects on vegetation derived from AVHRR data. **S. W. Dech and R. Glaser** ... 3243

Some urban measurements from SPOT data: urban life quality indices. **C. Weber and J. Hirsch** 3251

Spectral characteristics of vegetation cover: factors of variability. **V. I. Kharuk, A. M. Alshansky and V. V. Yegorov** 3263

Reflection of layered bean leaves over different soil backgrounds: measured and simulated spectra. **J. R. Miller, M. D. Steven and T. H. Demetriades-Shah** 3273

Soil resource mapping using IRS-1A-LISS II digital data—A case study of Kandi area adjacent to Chandigarh-India. **M. Kudrat, A. K. Tiwari, S. K. Saha and S. K. Bhan** 3287

The effect of pulse phase distortion on the height estimation of a radar altimeter. **D. V. Sheehan and H. D. Griffiths** 3303

Extraction of ocean surface wind field from simulated ERS-1 Scatterometer data. **B. S. Gohil** 3311

Non-linear features related to the dual-frequency technique in maritime applications. **S. Jacobsen and T. Eltoft** 3329

Classification of snow cover and precipitation using SSM/I measurements: case studies. **J. V. Fiore Jr. and N. C. Grody** 3349

Book Reviews 3363

Remote Sensing Letters

The peak near 700 nm on radiance spectra of algae and water: relationships of its magnitude and position with chlorophyll concentration. **A. Gitelson** 3367

Multisource evidential classification of surface cover and frozen ground. **D. R. Peddle and S. E. Franklin** 3375

GERES: a prototype expert system for the geometric rectification of remotely-sensed images. **M. I. Heard, P. M. Mather and C. Higgins** ... 3381

Some critical remarks on the use of C-band radar data for soil moisture detection. **C. Schmullius and R. Furrer** 3387

NUMBER 18

Cover. Preliminary information resulting from the analysis of satellite thermal data on the surface of Mars surveyed within the framework of the 'Fobos' experiment. **A. S. Selivanov, M. K. Naraeva, V. I. Gorny, V. I. Kolesnikov, B. V. Shilin and A. A. Tronin** 3391

Texture classification in aerial photographs and satellite data. **E. Sali and H. Wolfson** 3395

In-flight calibration of large field of view sensors at short wavelengths using Rayleigh scattering. **E. Vermote, R. Santer, P. Y. Deschamps and M. Herman** 3409

Assessment of millet yields and production in northern Burkina Faso using integrated NDVI from the AVHRR. **M. S. Rasmussen** 3431

Atmospheric effects on SMMR and SSMI/I 37 GHz polarization difference over the Sahel. **B. J. Choudhury, E. R. Major, E. A. Smith and F. Becker** 3443

Remote sensing of water quality in active to inactive cooling water reservoirs. **E. W. Ramsey III, J. R. Jensen, H. Mackey and J. Gladden** . 3465

Book reviews 3489

Remote Sensing Letters

Initial observations on using SAR to monitor wildfire scars in boreal forests. **E. S. Kasischke, L. L. Bourgeau-Chavez, N. H. F. French, P. Harrell and N. L. Christensen, Jr.** 3495

Index of Authors (with titles of papers) 3503
